Artemether-Lumefantrine Dose Impact Study Group

Acknowledgements

WWARN thanks the following investigators who contributed individual patient data from published or unpublished clinical studies to the AL Dose Impact Study Group pooled analysis investigating:

- the mg/kg dosing range of the clinically-adopted ACT partner drug lumefantrine; and
- the effects of lumefantrine mg/kg dosing on clinical outcome.

35. Laminou I. Randomized, double blind study comparing the therapeutic efficacy and safety of artemether-lumefantrine and artesunate amodiaquine in Gaya, Niger, 2011.

59. Syafruddin D, Ash PB and Joshi AN. Evaluation of the parasite clearance day following treatment with artemesunate-amodiaquine in subject with uncomplicated Plasmodium falciparum malaria in West Sumba District, East Nusa Tenggara, Indonesia, 2011.
